

Andrew R. Ferraro, M.S.

Andrew is the facility manager for the Airflow Induction Test Facility at the William J. Hughes Technical Center located at the Atlantic City International Airport. He is responsible for the testing apparatus' and equipment at the facility including the five-foot diameter wind tunnel. Andrew has over five years of experience working in aerospace engineering. He graduated from Rutgers University with a Bachelor of Science in Aerospace Engineering in 2019, and a Master of Science in Mechanical and Aerospace Engineering in 2022. His fields of expertise are experimental design, computational fluid dynamics, drones, rapid prototyping, and computer aided design.
